OSCAR

ALL RIGHTS RESERVED

An exclusive Theatre style tip-up armchair, designed for maximum user comfort.

Comprising a design which is timeless and fits into both modern and classical installations. Its looks are complemented by its simplicity and the unparalleled comfort offered by its ergonomically profiled back. Using high-quality materials throughout and with

attention to every detail, Oscar is highly suitable for prestigious interiors, and thanks to its acoustic properties it is ideal for opera houses and theatres.

Ideal for opera houses, theatres, auditoria and cinemas.

- + Available in easy to use demountable format.
- + Freestanding sledge base armchair.

Measurements

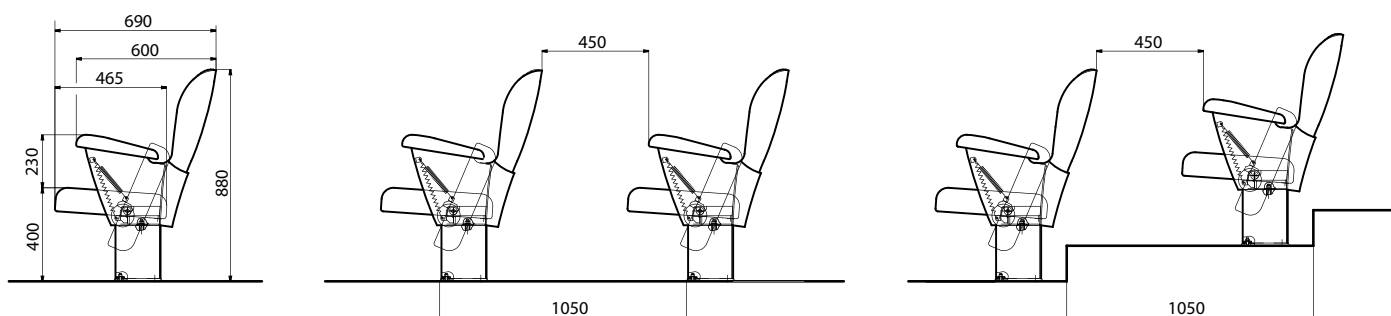

Oscar is offered with the choice of three arms – in a Slim, Mid or Comfort model for the best match of the furniture with the overall aisle space available.

The standard seat design can accommodate tiers of maximum height 30 cm. Higher tiers can also be accommodated using non-standard components.

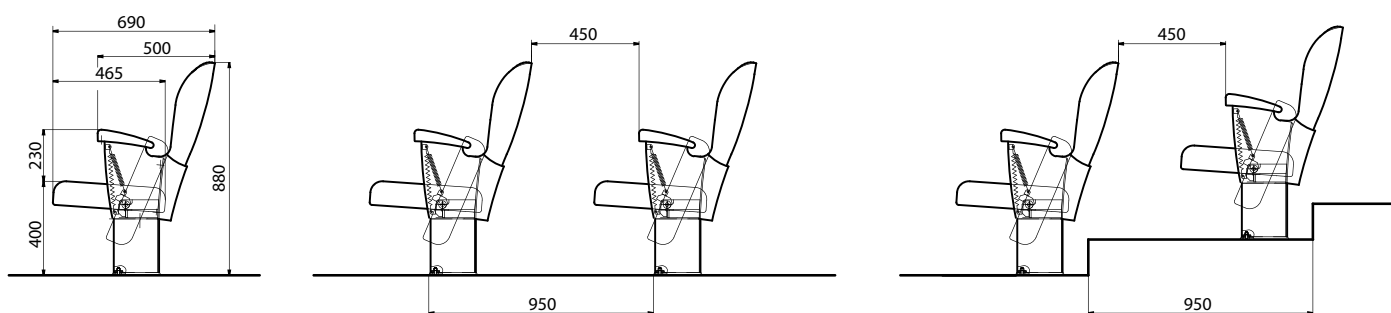

Each project will be the subject of site visits and detailed discussion.

OSCAR • Comfort

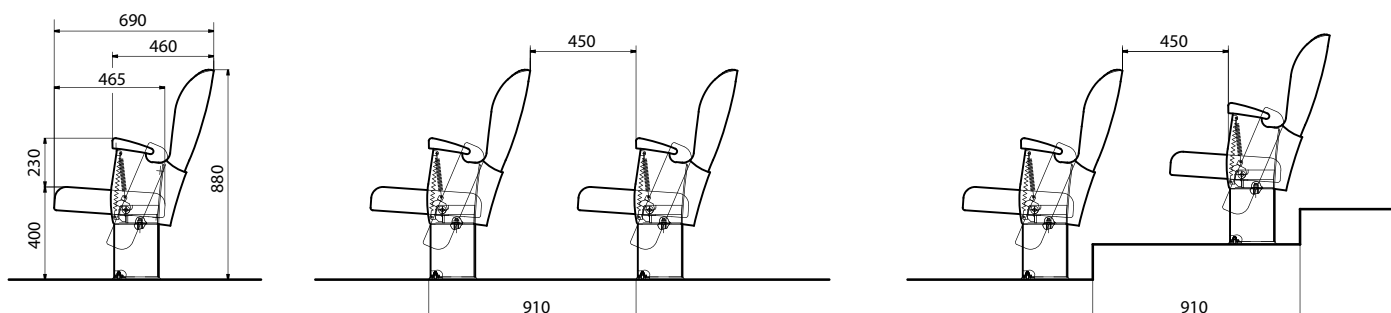

Measurements in mm.

OSCAR • Mid (W)

OSCAR • Slim (New)

Back

- Back made of pre-formed plywood with moulded polyurethane foam upholstered cushion.

Options

- The seat back can be finished in show plywood, or upholstered.

Back and seat

- The metal frame of the seat is surrounded by polyurethane foam with excellent mechanical properties; allowing both seat and the back to maintain their original shape even after many years of use.
- The seat is upholstered in a range of high wearing stretch fabrics with excellent resistance to fire and abrasion for intensive daily use.*

* more in Technical information

Arms

- A solid wooden arm rest sits on top of the upholstered sides of the armchair emphasizing its aesthetic properties and providing a comfortable support.

Options

- The sides can be also made of solid wood without upholstery.

Load-bearing construction

- Steel frame

Legs

- The armchair stands on metal powder coated legs, permanently fitted to the floor. At the point of contact with the floor, the leg is finished with an elegant metal, chromium-plated trim plate.

Spring tip seat

- Concealed spring mechanism allows the seat to fold automatically, for maximum user safety and comfort. The mechanism is tested to 100 000 cycles.
- The standard soft close system is highly recommended for cinemas, concert halls and theatres.

Row and seat numbers

Folding writing tablet
Made from plywood and available for both right and left handed users.

Upholstered headrest
Enhances comfort and adds prestige.

ABS Kick Panel
An ABS kick panel can be included to protect the seat back from damage.

Acoustic seat panel
Enhances sound absorption.

Mobile sledge base armchair
Not fitted to the surface, easy to move.

Technical information

- **Paints and varnishes:** metal elements – powder coated or chrome plated; wooden elements – water based lacquer and stained.
- **Upholstery:**
Veltolux textile: 100% polyester, resistance to abrasion 70 000 Martindale cycles; fire resistance: EN 1021- 1 (cigarette); EN 1021 - 2 (match); NF-P-503 M1; DIN 4102 B1.

Violetta textile: 100% polyester Trevira CS, resistance to abrasion 25 000 Martindale cycles; fire resistance: EN 1021- 1 (cigarette); DIN 4102 B1.
- **Plywood:** profiled beech plywood class I (highest quality), thickness: 12 mm.
- **Weight of the armchair:** 26 kg, with each next chair in the row 19 kg.

Certificates

- Strength and durability tested to EN 12727.
- Fire resistance (emission of toxic by products) PN -B-02855 standard.
- The armchairs have been tested for their sound absorption properties, with and without the presence of audience, according to standard EN ISO 354 – Acoustics – Measurement of sound absorption in a reverberation room.
- Fire resistance classification for the flammability of upholstered furniture, according to EN 1021-1, EN1021- 2 standard, which classifies the product as fire resistant.

Wood finishes

Colours shown in the catalogue may differ slightly from the actual fabric colours due to the limitations of the printing process.

High quality beech plywood stained and finished with ecological water based lacquer.
