SelectStep

The heavy duty yet lightweight SelectStep is a three, four, five, and six-tread stepladder, and is the only stepladder that can be safely used on stairs and sloping ground.

No matter how you set it up, the patent-pending SelectStep provides a comfortable standing platform, and the optional AirDeck utility tray and handrail (shown above but not included) makes standing at the top of the Select Step feel as good as standing on solid ground.

AirDeck™

Multi-use tray and handrail for extra security

Rock Lock™

Easy to use for quick adjustment

Platform

Comfortable standing platform

Large Treads

Double depth angled rungs for maximum comfort

Flared Legs

The most stable step in the world

Tip & Glide

Pull it wherever you want to go

New! SelectStep Professional Multi-Step

With seven patents pending, the SelectStep is the most Revolutionary step ladder on the planet!

Stand all day in comfort thanks to the specially designed wide, flat rungs.

Change height with a simple click of the Rock Lock system.

Stay safe and stable atop your ladder thanks to the Comfort Step™ platform.

Keep your tools and supplies handy with the innovative top cap storage system.

Work on uneven surfaces with independently adjustable front and rear rails.

Folds quickly and easily with a quick pull of the no-pinch ComfortStep™.

Integrated Tip & Glide Wheels™ allow easy transport from job to job.

Enjoy increased stability and safety courtesy of the wide flared legs and skid proof feet.

Safety Step

The Little Giant Safety Step is a unique combination of strength and simplicity. The Safety Step is constructed with super-strong, lightweight aerospace-grade aluminium; and its wide, slip-resistant steps give you unmatched comfort and stability. The Safety Step operates so easily that you can open and close it with one hand, and its slim storage depth will let you store it just about anywhere. This tough, compact stepladder can handle just about any task, from the lightest house chore to the heaviest industrial job.

Ladders

Little Giant Classic

24 Ladders in 1 compact design

Little Giant Classic

The Little Giant Classic is the strongest, safest, most versatile ladder in the world. The Classic's patented Triple-Lock Hinge and telescoping sides make it a true multi-use ladder. In fact, the Classic can be used in 24 unique configurations, as an A-frame, extension, staircase, and 90-degree ladder, and as a trestle-and-plank scaffolding system.

You will enjoy an unmatched feeling of safety and stability on the Little Giant Classic. It is constructed of heavy wall, aerospace-grade aluminium, and its wide-flared legs give it a feeling of stability you cannot get with a traditional A-frame or extension ladder.

Triple Locking Hinge

The strongest part of the ladder

Comfort Rungs

Double depth and offset for maximum comfort

Buy 1 Ladder to do the job of 5

24 configurations, including A-frame, extension, 90-degree ladders and 3 different scaffolding heights

Aerospace Grade

LITTLE GIANT STRONG

The Little Giant Ladder story began over 30 years ago from its' Utah headquarters in the USA. Little Giant Ladder Systems created the articulated ladder market after the launch of a hugely successful TV infomercial back in 2003. Today it holds world wide patents and trademarks on many innovations in ladder design and manufacturing.

With Global distribution Little Giant Ladders continue to lead the industry in innovation and product excellence. TB Davies Ltd has been the exclusive wholesale distributor for over seven years and you can find Little Giant Ladder products at both national and independent merchants throughout the UK.

Coming Soon

SUMO STANCE

MICRO BURST

The SumoStance is the world's only wide-stance extension ladder with adjustable outriggers, which triple its base width and increase side-tip stability by over 500%. Both SumoStance outriggers adjust 220mm up and down to work on nearly any surface.

At first glance, the Little Giant MicroBurst looks like a traditional A-frame stepladder, but there is nothing traditional about it. The MicroBurst's unique pivoting top cap and patent-pending StableLock spreader system fundamentally change the standard stepladder model.
