

Acoustic solutions

We are all born with an ability to focus. But as much as we would like to retain that skill forever, life itself proves to be very loud, colourful and sometimes just too interesting for us to be able to avoid distractions forever. Being able to concentrate is something we need to fight for, especially in open offices. And the best weapon for winning that fight is not stronger coffee or cooler office perks, it's offering your employees a real chance to focus.

Safer working hubs

We've also made sure that our Silen hubs are made with medical grade antibacterial material options. So even at times like these, we can keep you completely safe.

Our HEPA filter makes this the safest and most convenient workplace in your office with 99.9% of bacteria filtered out every minute.

Our handles are coated with antibacterial coating.

The outside walls are covered with a medical grade antibacterial laminate.

Privacy can be difficult to find in a modern, open plan office. Silen 1 puts your workspace to most efficient use by creating an island of silence in an open office. The phone booth has one of the largest interior footprints on the market, featuring a built-in laptop table with a ferrous metal back, this acoustic pod is perfect for individual work and phone calls.

Telephone booth adequate for one person for a call or to work privately

Use the retractable castors to move the hub and level with the adjustable feet

Silent ventilation with air flow of 28L/S – up to 25% more than competitors

Interior dimensions of 900 x 1010 x 2050mm (WxDxH), ideal for a stool

About

Highly relevant in today's modern open plan offices, Priva workspaces are designed for those moments where personal space is required to focus on tasks with minimal noise and distraction. The solo booths are a great place for individuals to seek refuge away the busy, hectic office environment by creating a compact, secluded working area which is sometimes needed for a period of intensive work or concentration to finish off the job in hand.

Design can be easily extended with numerous configurations to suit any office layout

Retreat offering visual and acoustic privacy in open plan office environments

Ideal for private phone calls or as a quiet place to work for focused tasks

Square, hub, triangle and hexagonal shaped workstations to suit all styles

Two-tone acoustic fabric options with built in power to enhance office aesthetics

Fabric Finishes

lead time

Too much interaction and not enough privacy has become a real issue for employees who need to concentrate or just take a break during the working day. Priva workstations bring a new level of flexibility to the office with versatile, individual cubicles to suit all working styles. Priva Rectangles are high tiered square booths designed to provide a high level of acoustic and visual privacy.

lead time

The loss of private space and an inability to concentrate in an open plan work area has inspired the design of the Priva angles workstations which can be configured to specific needs and support individual work zones. The rich repertoire of geometric shapes can be positioned to suit defined spaces, allowing individuals to concentrate and complete focused tasks in a private space within the workplace environment.
