About Leaffield

Leaffield Environmental* is a leading manufacturer and designer of street litter and recycling products, supplying leading companies, universities, schools, hospitals and local authorities. We work closely with customers to provide the very best solutions for litter and waste collection.

Recycling is an opportunity to reduce your carbon footprint and save on landfill waste costs. Throughout this brochure we highlight a range of products particularly suited to the needs of recycling.

Leaffield Environmental manufacture using rotational moulding, a fast and efficient method which produces consistent high quality, hard-wearing and stress-free products. We also have the ability to manufacture in 100% recyclable material to BS EN ISO 14001:2004.

For more information
please visit our website;
www.leaffieldrecycle.com

“ Substantial
reductions have
been made in
the amount of
waste sent to
landfill with
only 3% of food
and packaging
waste going to
landfill in 2012,
compared to
16.5% in 2006 WRAP

Meridian 87/110

The Meridian was originally designed for universities, and is now part of the furniture in hospitals, schools and businesses. Available in two sizes the Meridian offers a great versatile option for your recycling needs, choose the apertures you require.

The 110 capacity model was designed in partnership with **Greenwich University**. The 87 capacity model was designed in partnership with **Coventry University**.

- Ideal for a wide range of internal waste recycling situations
- Use individually or in a group
- Wide range of aperture options (100, 70/30, 30/40/30%)
- Removable liquid reservoir complete with non-spill moulded funnel
- WRAP compliant colour coded apertures and graphics as standard
- Label personalisation
- Area available for personalised graphic or company logo

- Slim body profile makes it ideal for placement along corridors and narrow walkways
- Rotationally moulded A3 signage kits are available, optional securing to the back of the unit or wall mounted
- Optional - Bin Linkage
- Hinged lift lid with ergonomic groove for easy lifting
- Standard posters available

Create the bin of your choice with our mix and match apertures.

WASTE STREAM OPTIONS

Lids/labels available

SteriBin 90

The Steribin was designed for the NHS and is now part of the furniture in universities, colleges and businesses. This is Leafields' first pedal recycling bin, there is a wide but shallow foot print which is ideally suited to environments where space is limited and as an optional extra the SteriBin can be offered with an antimicrobial additive.

Minimal components used which allows the bin to be completely **stripped down** for **deep cleaning** in less than **eight minutes**.

SteriBin at Bath Spa University, canteen/student study area.

- Lid closes into tight recess to help contain odours
- Mould-in graphic labels - no sticky edges where bacteria can build up
- Front moulded handle - for ease of manoeuvre and to reduce manual handling
- Option of either a single or triple (30/30/30) waste stream

- Double skin wall of the product is kept in tact even after component assembly providing easy to clean surfaces
- Includes either sack retention bar or plastic liner
- Complete component strip down - in under eight minutes for deep clean

Front non-marking wheels - for easy manoeuvre.

A loose fitting drip tray will collect liquid and other waste should a bag leak.

Easy press pedal operated lid.

Tilting sack frame, one movement for very quick and safe bin maintenance.

WASTE STREAM OPTIONS

Internal Recycling Range

EcoAce 41,52,62

The EcoAce range is available in either 41, 52 and 62 litre capacity making it ideal for small offices wanting to introduce or step up recycling rates. This compact recycling unit has cut out handles to allow users to lift the base to a central collection point.

- Suitable for internal use
- Slimline, compact and space saving design
- Use individually at desk side or in a group
- WRAP colour coded apertures and graphics as standard
- Bag less option
- Oval aperture in lid suitable for a number of different waste streams
- Label and colour customisation - optional extra
- Handles in base for easy lifting

Ideal for low, medium or heavy volume waste recycling

Lift off lid option ideal to collect general waste or food waste.

Black base made from 100% recycled plastic*
*Subject to availability

Desktop Bins

Tiny-Tidy is two small, stylish waste receptacles that, in a world of working lunches and 'tea-breaks without the break', bring recycling right to the desktop.

- Two convenient, colourful 2.5 litre microbins in a robust tray
- Suitable for a variety of waste streams, e.g. food waste, tea bags, stirrers, etc
- Available with open top or flip lid
- Strong, durable, rotationally moulded
- Optional WRAP compliant labels and corporate branding
- Custom colours to suit

Black tray made from 100% recycled plastic*

APERTURE OPTIONS

Internal Recycling Range

Envirobin 55/82

The Mini is ideal for lower volume whilst the Midi is ideal for medium volume waste recycling, use individually, in groups, back to the wall in the office or back to back in corridors.

- Slimline, compact & space saving design
- Sack retaining feature for discreet fitting of a refuse bag
- WRAP compliant, colour coded, apertures and graphics as standard
- Key lock for confidential paper bin
- Aperture shapes include slot, hole, open, propeller, lift-lid, stay open lid
- Mini Ideal for low yield waste streams
- Midi comfortable height for users and cleaning staff
- Area for personalised graphic or logo

Envirobin 100

Where it all began, the Envirobin 100 is Leafields' first internal recycling range and has remained popular over the years for its great value and service.

- Ideal for a wide range of internal waste recycling situations
- Works well individually or in a group
- Sack retaining feature for discreet fitting of refuse bag
- Wide aperture for larger waste items
- WRAP compliant, colour coded, apertures and graphics as standard
- Aperture shapes include slot, hole, open, cup, split, hooded, flip-top, lift-lid and propeller
- Area for personalised graphic or logo
- Key lock for confidential paper bin

Rotationally moulded A4 signage kits are available, optional securing to the back of the unit or wall mounted

What about residual or food waste? Try a Flip, Hooded or Open top Envirobin.

- All edges designed with large radius to minimise dirty traps
- Liquids reservoir includes a clever moulded in handle allowing easy manual handling
- One-piece seamless construction for ease of cleaning
- Lightweight yet inherently strong

Maxi 140

The Maxi recycling bin provides a larger capacity for higher footfall areas both indoors and outside. Ideal locations include food halls, university campuses, entertainment venues and parks. Link them together to form 'Recycling Zones'.

The Maxi is the solution for recycling in larger areas.

- Slimline, compact & space saving design
- Comfortable usage for cleaning staff
- Slam shut door with four strong latch points
- Double skin moulding throughout for exceptional strength
- Easy to use sack retention hoop system
- WRAP compliant, colour coded, apertures and graphics as standard
- Aperture shapes include slot, hole, large hole and propeller
- Area for personalised graphic or logo
- Key lock optional for secure outdoor use

Unique full frontal door system makes emptying a full bin a much easier task!

Envirobank at Bath Spa University

Supplied by Merlin Industrial Products Ltd - 0845 124 9955 - sales@mipl.uk

- Choice of 140 litre or 240 litre capacity for single waste streams
- 180 litre capacity (2x 90 litre) for split waste streams
- Optional extra; internal wheelie bin or sack retention available (140 and 240)
- Front opening design allows emptying without lifting
- Dimpled surface to deter fly posters
- Heavy duty, automotive grade, tamper-proof lock
- Slam shut door with four strong latch points
- Choice of WRAP compliant colour coded apertures and graphics
- Panel for personalised graphic or company logo (248mm x 200mm)
- Moulded through ground fixing holes for bolt down option
- Moulded drainage holes
- Moulded in stiffening ribs which eliminates the need for ground anchor plates

Twinbin 170

The TwinBin **award winning** design, provides a solution to a growing need in public spaces to, not only, collect waste but also separate recyclable items like plastic bottles and newspapers. It does this in a single compact and robust unit in a design that sits well in both traditional and contemporary environments.

Landfill and recycling...
...have it both ways

- Contains two 85 litre capacity bins
- Choice of WRAP compliant colour coded apertures and graphics as standard
- Front opening design allows emptying without lifting
- Concealed hinge
- Litter (without insert) aperture suitable to accept 12" pizza box

- Moulded drainage channels
- Moulded through ground fixing holes for bolt down option
- Suitable for internal concrete ballast fitted by customers at time of installation
- Panel for personalised graphic or company logo (248mm x 200mm)

Black base made from 100% recycled plastic*
*Subject to availability

TwinBins are manufactured in three parts, the main body and two doors.

This provides additional options for personalisation that includes producing one or both doors in a different colour to the main body.

Narrow footprint to minimize obstruction

(General Waste)

Pioneer 130

The 130 litre Pioneer Bin can either be used as an on-street litter bin or as mixed recycling bin with the addition of WRAP compliant colour-coded recycling inserts. The propeller shaped insert enables the collection of a wide variety of recyclable waste streams whilst the honeycomb double skin structure produces an exceptionally strong bin.

The Pioneer
is ideal for dry
mixed recyclables

- Generous 130 litre capacity requiring less frequent emptying
- Double skin construction gives exceptional strength
- A dimpled exterior to increase resistance to fly posting
- Concealed hinge
- Moulded drainage channels
- Litter (without insert) aperture suitable to accept 12" pizza box
- Front opening design which allows the liner to be removed without lifting it out of bin
- Moulded through ground fixing holes for bolt down option
- Suitable for internal concrete ballast fitted by customers at time of installation
- Panel for personalised graphic or company logo (248mm x 200mm)
- Slam locking door system for added security and ease of emptying

Front opening design makes emptying a full bin a much easier task!
