the b.Office offer

« Buronomic listens to you! Buronomic evolves and facilitates your development initiatives and furniture projects.
How? By providing you with a transparent, reliable and rapid service.
By offering you ergonomically, aesthetic solutions to Work, Organize, Meet, Manage and Seat.
Buronomic becomes your partner for well-being in the workplace»

Pascal Legros
CEO of Buronomic

buronomic personalised, made to measure services

- A national and international proximity network of Buronomic associated and certified distributors.
- Sales teams dedicated to responding to your needs.
- Personalised advice and optimised solutions for the configuration of your workspace.
- 3D visualisation of your equipment project on the pCon Planner software.

The benefit of a quality delivery and assembly service, implemented by teams of installers approved by the Buronomic training school.

Consult the specialist After Sales Support team and benefit from support in the management of your furniture assets.

buronomic the assurance of French expertise

Buronomic places innovation at the heart of its strategy :

- By integrating a marketing and manufacturing plan taking advantage of the values and ideas of our 170 experienced management and staff.
- Through the design and development of innovative products, that are simple to implement.
- By ensuring the value of French quality production, ISO 9001 and 14001.
- By offering you an exclusive range enriched with new materials and finishes that are right up to date.
- By ensuring that you receive exemplary responsiveness with 15,000 m² of finished products in stock offering an express delivery across the range.

buronomic responsiveness that makes the difference

- United Kingdom flash delivery lead times in 8 working days your order available with your distributor.
- Scheduling of installation of your furniture items with optimum lead times by your distributor.

the quality assurance

a social initiative

Man and the environment are at the heart of our strategy. Our civic commitment is affirmed through the principles of social equity and is translated into the day to day care for the well-being of our teams, of our clients and of our partners.

We believe that respect for nature and the design and manufacture of clean and durable products all form an integral part of our lives. We have had a long-standing commitment to understanding the impact of the components of our products on the environment, during their life cycle and in the recycling phase. We are continually studying new perspectives for enhancing our processes, products and methods.

Our carbon footprint is witness to this, as are the following actions :

- Founder member of the quality of life observatory, Actineo.
- Partner of the ecological body Valdélia for the collection and recycling of second hand furniture.
- The ecological design of our ranges, in accordance with the professional furniture system of reference.
- The company commitment certified for our management system and our materials.
- The recovery of wood off-cuts and recycling of 88% of waste.
- The reduction of packaging.
- Load and transport optimisation.

guaranteed by :

lifespan warranty through testing

ERGONOMICS
The sizes of desks are checked in height and depth to ensure optimum ergonomics in the seated position.

DURABILITY
50,000 cycles of opening tests ensure the durability of storage items and pedestals (with loaded drawers for the pedestals). The resistance of pedestals, with open drawers is also tested under a vertical load of 25 kg.

ROBUSTNESS
Desks are subjected to a lateral force on 2 axes for 5000 cycles in order to ensure the durable robustness of the structures, and 1000 cycles for pedestals and storage items.

STABILITY
The stability and lifetime of desks, pedestals and storage items are analysed in a large number of vertical static loading tests.

SAFETY
The doors and roll-out/sliding elements of storage items are subjected to a locking test under a traction effort of 20 kg.

clear certifications

NF ENVIRONNEMENT
[FRENCH ENVIRONMENTAL STANDARD]

The life cycle of products is controlled throughout the production chain :

- materials and components used,
- impact of the manufacturing site on its environment,
- control of energy,
- packaging, logistics and transport,
- information given to the consumer,
- product end of life.

OEC OFFICE EXCELLENCE STANDARD
CERTIFIED

The system of reference corresponds to the NF Bureau standard with a set of tests that demonstrate the conformity of products to the standard requirements of safety and durability, combined with the company's corporate social commitment.

BS
Buronomic's furniture is certified NF bureau and therefore complies with British Standards (BS): EN 527 for desks, EN 14073 and EN 14074 for pedestals and storage units.

5 YEAR GUARANTEE

The quality and durability of the materials enable us to guarantee all our ranges for 5 years under normal conditions of use, with the exception of some specific chairs, see page 169.

OFG ORIGIN FRANCE GUARANTEED

Buronomic Structorex® (MFC*) products are certified by this label.

- at least 50% of the product cost price is manufactured in France.
- the place where the products take its essential characteristics is situated in France.

*melamine-finished chipboard panels, desks, pedestals and storages.

distinctive product features

STRUCTUREX® PANELS

- full panels of particles with melamine surfacing.
- counter-balanced and treated against reflection
- thickness 16 to 25 mm.
- density 680 kg/m³ for the 25 mm panels.
- tested as conforming to abrasion and hot & cold water resistance to the XP D60-050 standard.

NITECH® PANELS

- honeycombed panels between 2 melamine coated 8 mm infills, total thickness 38 mm.
- decorative coating imitating a choice of wood species.
- anti-shock reinforcement edging in ABS, thickness 2 mm.

METAL STRUCTURES

- high quality epoxy lacquered paint finish.
- resistant to impacts, scratches and corrosion.

METAL ASSEMBLIES

- metal inserts, factory pre-assembled.
- screw type assembly and metal insert fixings for perfect stability and a high level of durability.
- cams for complete tightening.
- rapid, easy assembly and disassembly, secure and durable.

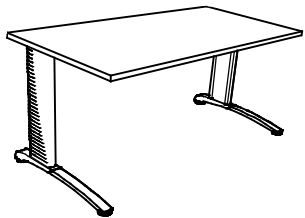

LOGOTYPE

- stamped products.
- guarantee of origin.
- French quality manufacturer.

SEAT

Sit down comfortably

The seat is an essential component of your ergonomics at your workstation. In making your choice, you need to take into account individual space, comfort and functional related to the work you do. A properly configured chair contributes to protection from back and circulation problems and contributes to your personal well-being. You should ensure that all the adjustment settings available are used so that you are sitting comfortably.

1 seating

2 chairs

3 visitor chairs

Advice

PERMANENT CONTACT

The back remains in permanent contact with your back and follows your movements giving support while in a more upright position whilst following your movements and giving support as you move forward in the normal course of work lockable in multiple positions.

SYNCHRO

The back and the seat recline in a synchronised motion to offer optimum comfort. The back rest is adjustable to users weight. The reversed lock system prevents the back rest from springing back against the spine when lever released. The mechanism is suitable for using office and computer equipment.

UPHOLSTERY

Mirage Fabric with M1 fire resistance, highly durable material with 100,000 rubs on the Martindale test. 100% polyester mesh with 100,000 rubs on the Martindale test. Planet imitation leather, high quality, 640 g/m², fire resistant to level M2.

GARANTEE

The guarantee for the chairs is for normal use of 8 hours per day. Fabrics are excluded from the guarantee. The guarantee is for 5 years for the whole range, except for the visitor's 4 leg chair, references V2 and V3, which are guaranteed for 3 years.
