

100% Recycled Bins, Tables and Seating

RECYCLED PLASTIC OUTDOOR FURNITURE

Opting for a product from our 100% recycled range means you are helping to reduce the amount of plastic that ends up in landfill and investing in quality products that last many times longer than timber.

Rotationally moulded from Polyethylene means this range can be left outdoors all year round as it is impervious to water, wood boring insects and frost. Our plastic furniture does not warp or twist over time like timber and is incredibly easy to clean between uses.

ALL STRUTS MANUFACTURED FROM 100% RECYCLED PLASTIC.

This is manufactured waste from household collections (plastic milk bottles; drinks bottles; trays; film; packaging waste) that is destined for landfill but can now be used to make durable products.

- Strong
- Rot resistant
- Maintenance free
- Long lasting
- Cost effective
