

About Nova

Nova is a tub chair range with single, double and triple options that will suit a variety of smaller, occasional seating areas.

There is no shortage of tub chairs on the market but our product is as good on the inside as it is stylish on the outside. Nova is manufactured by our craftsmen at our Thame factory using 18mm FSC timber frame and FSC hardboard for the back. The high density foams ensure a comfortable sit and durability. All of which makes us confident in providing a 6 year manufacturing warranty.

Nova is fully upholstered in a wide range of fabrics or leathers.
