

Price List

Expandaveyor Flexible Conveyor

the versatile conveyor company

Expandaveyor Flexible Conveyor

Highly mobile and extremely flexible the Expandaveyor can be moved, stretched out and positioned in minutes.

Skatewheel models are available with either free running PVC or bright zinc plated skatewheels and are suitable for conveying loads with good flat bases. Loads track well on skatewheel conveyors. Skatewheel conveyors can form tight turns and close up to less than one third of their open length.

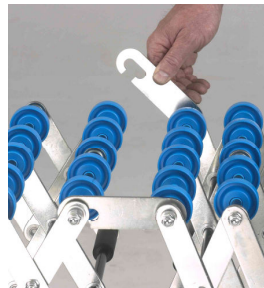

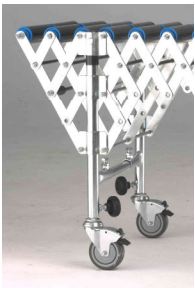

Roller models are available with either free running PVC or bright zinc plated rollers and are suitable for conveying a wider range of loads. Roller conveyors close up to less than one half of their open length.

Heavy duty models add diagonal knee bracers with either 9 or 12 axles between stands and 100mm swivel braked castors are upgraded to 125mm diameter.

Standard Expandaveyours open to have skatewheels or rollers at 125mm pitch, alternative pitches available on request.

For **technical support** or to obtain a quotation please contact our sales office. Not all options are shown in this price list, if your requirement is not listed please contact our sales office.
