This attachment is designed for the transfer and discharge of cement mortar, concrete or other granular material around construction/building sites. The contents can be poured in a controlled manner. The design also allows partial discharge. The cement hopper can be lifted by either a crane or by a forklift truck using the 3 way entry base.

Ideal for transporting cement, mortar or concrete around construction sites. Made from a heavy duty construction.

Model Ref.	Volume	Weight	A	B	C	D	h	h1	Length	Width	Height
