

Form

The essential building blocks of the contemporary workplace; desking, storage and technology management, are intrinsically linked, and Form is Tangents response.

Form gives designers the opportunity to create homogeneous workplace interiors where desking and storage are at one visually. Forms surfaces; vertical, horizontal and lateral, flow into each other to create a united, nonconflicting and understated aesthetic.

The adaptable nature of Form allows you to create a multitude of configurations to suit today's varied workstyles. Form's aesthetic can be extended beyond the open plan office to cellular offices and even reception areas.

Cables should be accessible when required and invisible when not. Below desk, cables rise through generous risers into a substantial cable channel. Above desk, power and data are easily accessed via Form's tool-panel.
