

Distribution Trolleys

Distribution Trolleys offer a safe and hygienic way of storing and transporting all types of products. All trolleys are fitted with high load bearing castors to deliver superior maneuverability, smooth handling and perfect balance. The bodies are produced from polyethylene and are mounted on a galvanised box section chassis giving a quality and durable product.

NL01

NL02

NL04

Trolleys are designed to carry up to 600kg. They are suited for both in house use and external distribution either by manual handling or electric tug operated systems.

The trolleys are used throughout a broad range of industries including hospitality, commercial laundries, pharmaceutical, electronics, catering and healthcare sectors.

Optional Features

Recovery Zip

Swivel/Braked Castor

Galvanised Box Section Chassis

Push / Pull Handle

Advantages

- Easy to manoeuvre
- Hygienic and easy to clean
- Durable polyethylene body parts
- Easy loading
- 900g PVC sheeted curtains
- Large carrying capacity
- Weather resistant
- Curtain trolleys are vermin proof
- Galvanised box section chassis
- Zinc Plated/Galvanised metal door

Recovery Zip

Galvanised Box Section Chassis

Swivel/Braked Castor

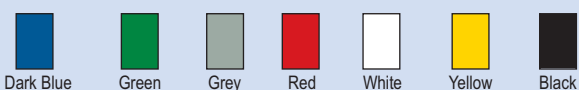

Optional Features

- Moulded in company logo
- Screen printing on curtain
- 50/50 options available on door
- Push/Pull or cut out handles
- Tow & Hitch systems
- Document pouch on curtain
