

LOADALL™

Merlin

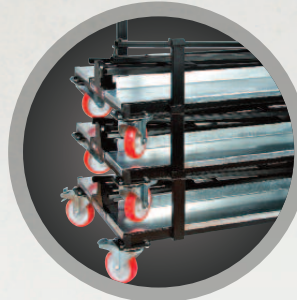

Industrial Products Ltd

Mobile trolley for transporting large sheets of board

The LoadAll saves space everywhere; in the yard, on the delivery truck and even on site. Designed for storing and transporting plasterboard and other large sheets of materials, it is the only one on the UK market which can be folded down and stacked when not in use. With no detachable sections, it prevents any parts from being lost, saving money.

FOLDABLE

STACKABLE

NO DETACHABLE PARTS

NEW

- ➔ Centre A-frame design means that when it is loaded with board, all the weight is leaning into the centre
- ➔ Complete with safe working load plates to certify the capacity of up to 1 tonne
- ➔ Can carry up to 24 sheets of plasterboard, which is approximately 60% more than other alternative products
- ➔ No detachable sections, which keeps the unit together and prevents loss of parts
- ➔ Folding and stackable unit, which keeps them tidy when not in use
- ➔ Provision for strapping boards to the LoadAll, to improve the health & safety of manual handling on site

Product Code	Description	Weight	External Dimensions W x D x H (mm)
LA1000	LoadAll	55kg	1200 x 750 x 1400
