

# MILENIUM 80 OPEN TOP

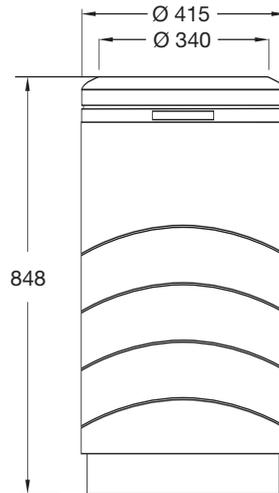

The Milenium range of litter bins is available in a matching range of shapes and sizes, in metal or polyethylene and with a versatile, innovative design. They are readily adaptable to any urban environment, such as historical settings, gardens and walkways, business districts and shopping centres.

Milenium is available in a variety of sizes. The neat appearance of the 50 litre bin makes it perfect for any urban environment, while the 80 litre version is suitable for open spaces, such as parks, walkways and shopping centres and the 130 litre version's large capacity makes it ideal for use in urban areas of high pedestrianisation.

Contenur designs and manufactures Milenium litter bins to procedures based on ISO 9001, and in compliance with our Environmental Management System ISO 14001.

The Contenur Group guarantees the quality of all its products and installations, and on request can also offer clients end-to-end product maintenance, including labour and materials. For more information, please contact our Technical Sales network.

## DIMENSIONS

NOMINAL CAPACITY	80 litres	MAXIMUM DIAMETER	415 mm
TOTAL HEIGHT	848 mm	TOTAL WEIGHT WITHOUT BASKET	25.50 kg
BASKET CAPACITY	65 litres		

## TECHNICAL FEATURES

- Body, base and upper rim manufactured from cast sand-blasted aluminium, painted Ironoxide grey. All metal parts are made of stainless steel or cast aluminium to prevent corrosion.
- The open-top filling area consists of a ring integral with the body to prevent the removal of the basket via the top.
- The circular 80 litre body into which the litter is deposited houses the door for emptying. A locking system with a standard triangular key is provided to prevent unauthorised access.
- Integral cigarette stubber in the body; ashtray can be supplied on request.
- 65 l basket has a reinforced ring in the upper part and is fitted with an integral handle to make emptying easier for maintenance staff.
- There is the option of replacing the basket with a refuse sack. The system can also be used to segregate two separate materials if a two-compartment basket is fitted.
- Vandal-resistant support frame is integrated into the body and is fixed to the pavement simply and securely by means of six 12mm universal expansion bolts.
- Latest advances in anti-vandal technology provide a tougher body and more secure locking.
- Low maintenance, with the smooth surface preventing the accumulation of dirt and facilitating easier cleaning.
- Innovative design with horizontal bands providing an original and elegant appearance.
- Standard distribution colour: Ironoxide grey.
- Can be customised by means of a badge affixed to the body, maximum size 120 x 120 mm.
- Packaged in a cardboard box with the Contenur logo in black and stacked on a pallet 1820 x 1200 x 1900 mm. The product is supplied ready-assembled for ease of transport and rapid installation.
