

LABORATORY FURNITURE

Do your working areas do justice to the quality of your business ?

If your chemical, analysis or processing areas look tired and corroded, take a look at the new range of CUSTOM BUILT furniture.

We can make sizes to fit your work area or you can select from our popular range, its up to YOU

The most important part of our range is that there are NO METAL COMPONENTS ARE USED!
We have developed catches, hinges, drawers, feet, shelves and doors completely made in Polypropylene.
This furniture will withstand the most corrosive and wet working environments. Buy it once and forget it for ever.
