

New from Merlin Industrial Products Ltd is the unique 1m Pyramid Barrier. This newly designed 'water filled' road traffic separator is unique in the way it's been designed and can rotate a full 90 degrees enabling contractors to box off projects providing added security.

The Pyramid Barrier comes in standard red/white colours but can be manufactured in corporate colours at no extra cost. Weighing only 5kg when empty and 55kg when filled, the Pyramid Barrier is the No1 choice for cost effectiveness.

The Pyramid barrier can be connected together forming a complete barrier between the public and free flowing traffic. Its unique connection system also enables it to be connected to the majority of existing barriers on the market, whilst it's shape provides effective stackability for transportation.

Key Features and Technical Details

- Size: 1m x 560mm x 400mm
- Weight: 5kg when empty, 55kg when full
