COSH cabinets with optional internal configurations
Can support heavy duty worktops

The Tough-Tec range has been designed for high-end service sectors from F1 to Aero engineering operations. The design of the range is to give a clean look but still deliver while in operation for the user. The cabinets range is vast from Bin Cabinets, Power Legs, Service Cabinets, COSH Cabinets and Tool Storage plus many more bespoke options available. The range will bring that clean look you require but still maximise your operations outfit.

Heavy Duty Tambour Door Cabinet

Specifics:

- 250kg Shelf loading (adjustable)
- Drawer Option
- 44mm H/D Aluminium Door
- Door colour can match cabinet
- Steel Handles (can be painted)
- 2 x point locking system
- Assisted door retraction
- Stand alone
- 2 x shelves as standard

The Tough-Tec Tambour door cabinet has been design to take high shelf loads and still be stand alone. The cabinet uses the same principle as commercial door systems using 44mm Aluminium profile. The cabinet has been designed to work efficiently in X-Treme working environments.
