

Waterproof Cases

Trifibre offer a vast range of injection moulded cases designed to withstand the most extreme conditions. Our range of cases are waterproof, dust proof, air tight and drop tested, making them ideal for protecting fragile medical and computer equipment.

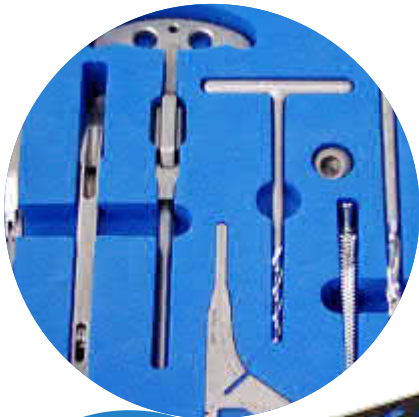

We are also dealers of leading brands of waterproof cases including:

All our waterproof cases can be further enhanced with a custom foam interior and printed logo or branding on the exterior.

Foam Engineering (CNC Routing)

Custom designed case interiors can be manufactured for any of our cases and bags. Foam inserts offer the ultimate in protection and presentation for your products.

We can also accept customer supplied CAD, in all major formats including AutoCAD DWG, DXF, Solidworks, STP and IGES.

A variety of foam types and colours can be used, depending on the size and weight of the items it will contain.
