

NEW FOR SPRING 2016

ZARGES Loftmaster

Telescopic loft ladder, compact for space saving storage

Easily access lofts using the ZARGES Loftmaster

Ideal for homes with limited vertical and horizontal clearance in the loft.

There are two models each adjustable to three lengths for optimum usability

Manufactured in anodised aluminium with steel fixing brackets and fitments

Fitted with rubber feet for safety and protection of the floor

Closes down to a compact size and fits into the smallest of spaces

The loft hatch must be converted so that the door opens downwards

Permanently fitted in the loft

Allows loft hatch to close when stowed away

Very easy to operate and use

Product Code	Floor to Floor heights	Minimum hatch size, W x L (m)	Overhang (distance behind the joist)(cm)
101482	2.17 - 2.61	0.51 x 0.60	23.5
