

At Merlin Industrial Products Ltd we realise that Crowd Control Barriers are a necessary piece of building equipment for event spaces, construction sites, road works and utility projects. Ideal for use both indoors and outdoors, our range of ground control barriers are made from hard wearing galvanised steel, and built to last.

Our range of Crowd Control Barriers are available in a choice of sizes to suit your needs. The best selling variety is the 2.3m fixed leg Crowd Control Barrier, or alternatively you can purchase the 2.5m Crowd Walkway Barrier, offering added height and security.

Quick and easy to assemble, our range of Crowd Control Barriers are also manufactured to the highest standards, to ensure that the barriers offer the utmost security and protection. Safety is a top priority at Merlin Industrial Products Ltd and all of our products, such as the Crowd Control Barriers, are rigorously tested.

Offering great value for money and adhering to manufacturing standards, our barriers are the ideal piece of equipment to help distinguish the safe access areas within your site or event space.
