Fabrics - Usage

Fabric choice

There are a wide choice of fabrics available and it is important that you select the right fabric for the application as well as creating the perfect finish to the chairs.

Fabric bands & recommendations

Not all fabrics are suitable for soft seating / reception seating. Fabric banding and application pages show all fabrics grouped in the relevant pricing bands together with recommended usage. We cannot guarantee the finish of any chair that is ordered in fabric that is not recommended for that application.

Hazard ratings

Low - EN1021 Parts 1 & 2 cigarette and match

Medium - BS5852 Ignition source 5 / Crib 5

Photographed upholstery

While every effort is made to represent colours accurately, we cannot guarantee the colours you see exactly match the colours of the actual fabric due to printing processes.

Fabric bands

Please contact our sales team for a price if your preferred fabric choice is not listed. Please make sure you check the suitability of a fabric before recommending a product. If two fabrics are used on one item e.g. two-tone, the cost is calculated on higher of the two fabric bands.

Colour variations

Whilst every effort is made, no guarantees are made against the minor variations in the colour of commercial fabrics. All striped fabric will be upholstered vertically unless advised.

Customers own materials

Fabrics not listed or customer supplied fabrics need to be approved before acceptance of orders. A pattern charge may apply to some fabrics. We reserve the right to reject fabric that we believe to be unsuitable for the product. We are unable to guarantee any product meeting fire regulations or standards which is supplied by a customer.

Please contact our sales team if you would like any fabric samples sent out to you.

Seating Guarantees

All seating products are guaranteed for a period related to the usage and the structural capability of the chair or soft seating.

Regardless of usage, all seating products are guaranteed against manufacturing defects, except for upholstery, castors and mechanisms which are subject to usage related wear and tear. The suggested maximum weight loading and hourly usage should not be exceeded. The guarantee is effective from the day the chair leaves the factory and the supplier reserves the right not to apply the guarantee in cases of inappropriate use or when the chair has been tampered with by a third party or interventions by non-authorised personnel.

Seating Guarantees - Made to Order

All products that show this symbol are made to your specification and to order. It is our policy that once these products have been ordered they cannot be cancelled.

Priority Fabrics

We have committed to stocking a range of 16 best-selling fabrics and 2 vinyls, which will allow us to offer customers an even faster turnaround across the seating range and tailor seating choices to customer's individual specifications.

Xtreme from Camira is a modern crepe weave fabric made from 100% post-consumer recycled polyester, diverting waste from landfill and saving virgin raw materials. Its stretch properties, coupled with high flame retardancy, meeting BS5852 Ignition Source 5 make Xtreme an ever popular fabric for task seating for all contract, commercial and public sector use.

This colourful selection of fabric colours in the Camira Xtreme range can bring the corporate palette into the office interior, create a cohesive look or even zone different areas.
