Technical Description

The Centrefold is a heavy-duty tower with a workload of 250kg is portable and will fit through standard doorways and the captive folding brace mechanism minimise the components. The larger 2m working platform has an increased trapdoor opening for ease of use. Tough brace hook assemblies, incorporate double torsion stainless steel springs for durable and reliable use.

- » Heavy duty construction with optional platform heights
- » Fitted with lockable castors and non-slip platform boards
- » Passes easily through standard doorways
- » Large working platform 0.7m wide and 2.0m long

Standards & Classification

- » Safe Working Load 250kg
- » Conforms to PAS 250

Warranty

- » 5 Years

Notes

All dimensions stated in mm unless marked otherwise. Engineering tolerance +/- 10% or 10mm, whichever is greater. Where applicable, approximate working height is calculated as 1,600mm + Last Climbing Height (4th rung from the ladder top) or the Platform Height.
